What's OUTSIDE the SELA (Requires Separate Purchase or Addendum)

Category	Product / Capability	Why It's Out
Agentforce (External Users)	Agentforce for Experience Cloud (A4X)	Per-user add-on, not in SELA
Analytics	Tableau Pulse / Proactive Insights	Separate SKU beyond Tableau Plus
Analytics	Agentforce for Tableau (agentic BI queries)	Requires additional add-on
Marketing	Marketing Cloud Engagement (Email/Journey)	Not confirmed in current contract
Marketing	All Marketing AI features (Engagement Scoring, Send Time Optimization, Campaign Agent)	Requires MC Engagement
Marketing	Account Engagement / Pardot	Not confirmed
Integration	MuleSoft (Agent Actions, API Management, Enterprise Integration)	Separate MuleSoft license required
Platform	Professional Services / Signature Success	Explicitly excluded from SELA swap mechanics
Platform	Salesforce Shield / Security Add-ons	Derivative/percentage-based — excluded by contract
Platform	Products that went GA after July 31, 2025	Require addendum

⚠️ Key Nuances for the DISW Conversation

Chargebacks Apply — Siemens Corporation holds the contract. DISW accesses licenses via internal cost allocation. Activation at the DISW entity level is not automatic.

Consumption Credits are Pooled — Einstein Requests, Data Services Credits, and Agentforce Conversations are pooled at the Siemens enterprise level. DISW must confirm allocation with Siemens IT/Procurement.

In SELA ≠ In Production — Licenses being available under the SELA doesn't mean they're provisioned or activated in DISW's specific org(s). Deployment is a separate motion.

Agentforce Swap Clause — The Dec 2025 amendment included a one-time option to swap Agentforce entitlements back to Sales & Service Cloud UE (deadline was Jan 15, 2026). Confirm Siemens did not exercise this option before the conversation with Tara. [5](#)
